- Rapid detection pathogens in food samples.
- Detection & quantification of genetically modified organisms

Auriga Research Limited

Continuing its glorious services Arbro has set up Auriga Research Limited as a dedicated & promising Contract Research Organization for conducting Bioavailability & Bioequivalence Studies as per ICH Guidelines. At present this Center is audited & approved by DCGI for conducting BA / BE Studies.

State of the art facility offers:

- ✓ Bioavailability and Bioequivalence Studies including Fasting/Food Effect Studies, Interaction studies, Multiple dose and steady state studies etc
- ✓ Complete Bio- Analytical Services
- ✓ Clinical Trials Phase II to IV
- ✓ Pharmacokinetics & Pharmacodynamic Studies
- ✓ Clinical Trials Formulation development & Manufacturing

The BE & BA studies at ARL are carried out as per detailed internal SOP's and applicable regulatory guidelines. The Bio-Analytical activities are conducted at ARL's Analytical Division.

Animal Health Division

Arbro has also set up an Animal Health Division (AHD), which primarily manufactures feed supplements & veterinary medicines for this Segment.

AHD is strongly positioned in several states in India and expanding markets in Domestic & International Arena.

Some leading products in this line include:

- ✓ Sulphadiazine & Trimethoprim Tablet B.P. Vet
- ✓ Albendazole Tablets U.S.P. (VET)
- ✓ Diclofenac Sodium & Paracetamol Bolus
- ✓ Arotone bolus
- ✓ Arofer bolus
- ✓ Agrivit vet
- ✓ Caltone-d vet
- ✓ Nutrivit-m vet
